
Time to open another bottle

Father forgive me for I have sinned. It's been about 6 weeks since I've opened a new bottle of tequila.

We'll see how Cruz Reposado treats me.

I've also been enjoying an open bottle of Distinguido Silver. It wasn't what I was expecting, but very enjoyable and working it's way to the top of my list.

Enjoy Responsibly,

I could not find where to post a message so im posting it here..

Im in desperate need of help. Maybe about a month ago I got so trashed by some tequila (cant even remember the bottle's name) that I threw up a couple of times and had a horrible hangover. I love my tequila dearly, but since that time just the smell gives me a gag reflex. How do I overcome this and make tequila go down smooth again? Anything will help.. Thanks.

There is a way back to paradise my friend. Unfortunately, it will take time.

In my youth, I had a bad tequila experience that left me with a three-day hangover. The smell of tequila was NOT good for a long time.

Take a tequila vacation and don't rush back. When it's time, go with a great margarita (in moderation!!) Then slowly work your way back to your favorites.

Remember Enjoy Responsibly!! :)
